End Application:

Missile Igm-30

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Fsc application data: piga test station p/n 36150-717

Special Features:

Printed wiring board 1, integrated circuit 78, connector 2, resistor 13, capacitor 37, resistor dip 5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
