| Overall Length:                          |
|--|
| 5.750 inches                             |
| Overall Height:                          |
| 0.500 inches                             |
| Overall Width:                           |
| 4.200 inches                             |
| End Application:                         |
| Solar observing optical network an/fmq-7 |
| Features Provided:                       |
| Electrostatic sensitive                  |
| Criticality Code Justification:          |
| Cbbl                                     |
| Special Features:                        |
| Plug-in type mtg                         |
| Shelf Life:                              |
| N/a                                      |
| Unit Of Measure:                         |
|  |
| Demilitarization:                        |
| No                                       |
| Fiig:                                    |
| A511k0                                   |
