End Application:
Airborne countermeasure an/alq-135
Features Provided:
Electrostatic sensitive
Criticality Code Justification:
Cbbl
Special Features:
Pwb 1, res 61, cap 39, transistor 8, semiconductor dvc 20, relay armature 4, connector 2, polarizing key 1, mounting pad 4, microcircuit 24
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
