Overall Length:

12.500 inches

Overall Height:

0.375 inches

Overall Width:

7.950 inches

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Special Features:

Acapacitor, fixed 56, connector, electrical 12, light emitting diode 1, microcircuit 47, oscillator, crystal 1, printed wiring board 1, resistor, fixed 110, resistor, variable 5, semiconductor device, diode 8

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
