Overall Length:

4.000 inches

Overall Height:

1.500 inches

Overall Width:

3.000 inches

End Application:

Electronic components assembly

Special Features:

Capacitor 1, diode 1, microcircuit 1, printed wiring board 1, resistor 4, transistor 2; mounting configuration: two 0.156 in. Dia. Mtg holes on 2.187 in. C to c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
