**Overall Length:**

5.875 inches

**Overall Width:**

4.500 inches

**End Application:**

An/tpb-1c

**Product Name:**

Usage design: system verification serial data interface

**Special Features:**

1 printed wiring board, 2 diode, 18 integrated circuit, 21 resistor, 21 capacitor, 1 connector, 12 test point, 2 ejector, 1 potentiometer

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
