End Application:

6625-01-055-9422

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Digital output

Special Features:

Programmed microcircuit logic level output on 12 lines; gate/flag circuits

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
