Overall Length:

14.000 inches

Overall Height:

1.630 inches

Overall Width:

9.000 inches

Special Features:

Printed wiring board 1, resistor fixed 173, resistor variable 7, capacitor fixed 97, semiconductor diode 44, diode silicon 2, diode 5, transistor 33, inductor fixed 1, core electromagnetic 4, hex bfr drv 1, transformer 1, pos nand gate 2, multivibrator 6, amplifier opnl 2, microcircuit 5, integrated circuit 1, connector receptacle 1, connector plug elec 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
