Overall Length:

8.500 inches

Overall Height:

0.500 inches

Overall Width:

2.500 inches

Special Features:

Capacitor 14, terminal, stud 4, printed wiring board 1, resistor, fixed, composition 42, resistor, fixed, film 13, pin 1, integrated circuit 13, transistor 13, semiconductor device, diode 13, resistor, variable, nonwire wound 2, extender, circuit card 1, can, square 1, coil, radio frequency 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
