**End Application:**

F-16 aircraft age.

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Product Name:**

Circuit card assembly, dac interface

**Special Features:**

Cap 13, conn 2, inductor 4, ic 14, pwb 1, relay 24, resistor 22; nha p/n 2212315, used on mod 345 next higher assembly - ais test station 2120300-309

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
