End Application:

Rocket management subsystem for ah-is hcpt

Special Features:

Printed wiring board 1; gasket, connector 1; microcircuit, quad operational amplifier 1; microcircuit, octal buffers/line drivers/line receiver 6; semiconductor device, diode 5; microcircuit, dgtl, low power schottky ttl, decoder 2; capacitor 16; connector, pcsubassy, plug 1; resistor 17

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
