Product Name:

Fsc application data: amplifier-converter, carrier inertial navigational system, acft

Special Features:

Printed wiring board 1, voltage regulator 2, diode 33, transistor 8, microcircuit 13, capacitor 36, resistor 140, connector 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
