Overall Length:

4.300 inches

Overall Height:

0.030 inches

Overall Width:

2.250 inches

Features Provided:

Electrostatic sensitive

Special Features:

Major components: capacitor 6; printed wiring board 1; coil 1; diode 1; transistor 3; resistor 15

Precious Material And Location:

Contact surface of board gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
