**Overall Length:**

4.300 inches

**Overall Width:**

2.250 inches

**Features Provided:**

Electrostatic sensitive

**Special Features:**

Major components: resistor 19; capacitor 13; coil 2; printed wiring board 1; diode 2; mounting configuration: plug-in mtg

**Precious Material And Location:**

Contact edge of board gold

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
