Overall Length:

4.000 inches

Overall Width:

2.000 inches

Features Provided:

Electrostatic sensitive

Special Features:

Major components: capacitor 8; resistor 10; transformer 1; diode 4; printed wiring board 1; mounting configuration: plug-in mtg

Precious Material And Location:

Contact edge of board gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
