**Overall Length:**

4.300 inches

**Overall Width:**

2.250 inches

**Features Provided:**

Electrostatic sensitive

**Special Features:**

Major components: capacitors 2; coil 1; printed wiring board 1

**Precious Material And Location:**

Contact edge of board surface gold

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
