Product Name:

Functional description: used as inverter assembly

Special Features:

Printed wiring board 1; resistor 48; capacitor 13; connector 1; relay 1; integrated circuit 4; semiconductor device 12; transformer 1; transistor 8; tip 13

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
