**Overall Length:**

4.625 inches

**Overall Height:**

0.500 inches

**Overall Width:**

4.625 inches

**Special Features:**

Major components: printed wiring board 1; resistor 51; capacitor 4; semiconductor device diode 5; transistor 7

**Precious Material And Location:**

Contact edge of board gold

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
