**End Application:**

Electical and electromic properties measuring and testing equipment

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Special Features:**

Printed wiring board 1; capacitor 12; resistor 22; microcircuit 5; transistor 3; diode 9: used in signal gen

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A511k0
