Overall Length:

4.000 inches

Overall Height:

0.250 inches

Overall Width:

2.000 inches

End Application:

Part of radar weather subsystem type fa8172

Special Features:

Major components: capacitor 5, coil 1, diode 18, microcircuit 3, printed wiring board 1, resistor 12; mounting configuration: plug in

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
