Overall Length:

12.500 inches

Overall Height:

8.750 inches

Overall Width:

1.750 inches

End Application:

An/fsq-114

Product Name:

Command module assembly

Special Features:

Cca 3, diod (led) 5; mounted on mpacs main frame w/2 thumbscrews, receives command position info from the computer, command position is phase coded and compared w/phase encoded mount position, analog output is produced that is proportional to the difference between the actual and the command position, output sent to servo module and used to generate drive currents for the mount during the fine sequence of the servo system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A511k0
