Overall Length:

6.740 inches

Overall Height:

0.500 inches

Overall Width:

4.325 inches

End Application:

Application data: aircraft auxilliary power unit

Special Features:

Capacitor 19, microcircuit 7, printed wiring board 1, resistor 70, semiconductor 8, transistor 16; rack mtd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
