Overall Length:

12.500 inches

Overall Height:

7.000 inches

End Application:

Very high frequency omni range instrument landing system (vor ils)

Special Features:

Capacitor 30, crystal 1, diode 3, microcircuit 16, printed wiring board 1, relay 2, resistor 70, transistor 10; function: cca, keyer board;
reference data: ti 6790.8, fa 9771

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
