Circuit Card Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5998-01-121-9613

Overall Length:
12.500 inches
Overall Height:
7.000 inches
End Application:
Very high frequency omni range instrument landing system (vor ils)
Special Features:
Capacitor 30, crystal 1, diode 3, microcircuit 16, printed wiring board 1, relay 2, resistor 70, transistor 10; function: cca, keyer board;
reference data: ti 6790.8, fa 9771
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A511k0
