Overall Length:

12.500 inches

Overall Width:

5.000 inches

End Application:

Very high frequency omni range instrument landing system (vor ils)

Special Features:

Capacitor 4, diode 5, microcircuit 1, printed wiring board 1, resistor 1, transformer 1, transistor 1; reference data: ti 6790.8, fa-9771 audio oscillator and identification keyer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
