Special Features:

Data output mil-std-188-114, 1; data input 1; clock output 1; clock input 1; ttl data input 1; ttl data output 1; ttl clock input 2; ttl clock outputs 3; ttl control signal for data sense, loopback, clock tracker functions/card type indication 5; printed wiring board 1; o/a dims and weight 7 in. Lg; 1.938 in. W; 0.300 in. H, max; 8oz; mtg data inserts into 15-pin dual pc edge connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
