Overall Length:

0.438 inches

Overall Height:

6.250 inches

Overall Width:

4.500 inches

End Application:

C-ive navigation unit, 7883450-051; aircraft instruments

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Stabilization amplifier redundant

Special Features:

Pwb 1, transistor 11, cap 27, heatsink 1, res 57, diode 15, mckt 5, transformer 2, inductor 5, relay 1

Unpackaged Unit Weight:

0.260 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
