**Overall Length:**

10.750 inches

**Overall Height:**

0.815 inches

**Overall Width:**

9.375 inches

**End Application:**

A/f37a-t63, f-16 operational flight trainer

**Product Name:**

Lfi computation network

**Special Features:**

Major components: printed wiring board 1; integrated circuit 53; capacitor 29; resistor 3; mounting configuration: plug-in; fsc application data: circuit card installation, p/n 7819100

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A511k0
