Overall Length:

10.750 inches

Overall Height:

0.815 inches

Overall Width:

9.375 inches

End Application:

A/f37a-t63, f-16 operational flight trainer

Product Name:

Lfi computation network

Special Features:

Major components: printed wiring board 1; integrated circuit 53; capacitor 29; resistor 3; mounting configuration: plug-in; fsc application data: circuit card installation, p/n 7819100

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
