End Application:

F-16 aircraft age.

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Remote control unit

Special Features:

Capacitor 26; diode 20; jack test 4; integrated circuit 49; printed wiring board 1; resistor 41; transistor 3; remote control unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
