End Application:

Ki-1a, e-boe matrix tsec

Special Features:

Major components: printed wiring board 1; resistors 19; diode switching 11; integrated circuit 12; transistor 1; socket transistor 1; socket integrated circuit 12; terminal feed-thru 83

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
