Overall Length:

8.000 inches

Overall Height:

7.760 inches

Overall Width:

4.500 inches

End Application:

Programmable controller 5ti, texas instruments, used to control lube and fuel oil systems aboard 270 foot uscg cutter

Special Features:

Resistor 40, capacitor 20, transistor 40

Unpackaged Unit Weight:

3.700 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
