End Application:

Tgm-65a

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Servo and logic

Special Features:

Printed wiring board 1; electronic switch 1; capacitors 18; resistors 130; diodes 30; transistors 23; integrated circuits 10; insulator transistors 21

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
