Overall Length:

9.000 inches

Overall Width:

6.000 inches

End Application:

F-16 aircraft age., 4920010963252, test station, integrated servo actuator

Product Name:

Lvdt excitation and demodulation, image system

Special Features:

Major components: capacitor 15; diode 9; integrated circuit 16; printed wiring board 1; relay 3; resistor 42; transistor 9

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
