Features Provided:

Electrostatic sensitive

Special Features:

Major components: printed wiring board 1; capacitor 14; resistor 108; diode 18; transistor 9; microcircuit 17; relay switch 6; edge connector 1; mounting configuration: plug-in mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
