Overall Length:

12.000 inches

Overall Height:

1.500 inches

Overall Width:

6.500 inches

End Application:

Low level wind shear alert system, fa9980

Special Features:

Capacitor 13, crystal 3, filter 1, microcircuit 1, module 15, printed wiring board 3, resistor 24, transistor 6; mounting method: plug-in mount; frequency set at 165.7625 mhz; function: printed wiring assembly, vhf link; reference data: item no. 6, ti-6560.13, fa-9980 llwas pg 8-6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
