Overall Length:
12.000 inches
Overall Height:
1.500 inches
Overall Width:
6.500 inches
End Application:
Low level wind shear alert system, fa9980
Special Features:
Capacitor 13, crystal 3, filter 1, microcircuit 1, module 15, printed wiring board 3, resistor 24, transistor 6; mounting method: plug-in
mount; frequency set at 165.7625 mhz; function: printed wiring assembly, vhf link; reference data: item no. 6, ti-6560.13, fa-9980 llwas
pg 8-6
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A511k0
