Overall Length:

6.000 inches

Overall Height:

1.188 inches

Overall Width:

6.000 inches

End Application:

Low level wind sheer alert system, fa-10240

Special Features:

Capacitor 3, light emitting diode display 5, microcircuit 14, printed wiring board 1, resistor 10; reference data: reference data: ti-6560.15, fa-10240, llwas, pg 6-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
