Overall Length:

5.750 inches

Overall Height:

1.750 inches

Overall Width:

2.500 inches

End Application:

Mark1f (instrument landing equipment)

Special Features:

Major components: capacitor 4; coil 10; diode 2; pwb 1; resistor 3; mounting configuration: mechanically mounted; partially enclosed; function, cca, filter/detector assembly; reference data, 4a6, ti-6750.153, fa 9922, pg 8-28; 6a3, ti-6750.145, fa 9923, pg 8-23

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511k0
