End Application:

Multiplexer/demultiplexer td-1220/g and td-1246/g

Special Features:

Major components: printed wiring board multiplex clock 1; capacitor 27; resistor 27; microcircuit 15; programmed for various operating frequencies; unique program

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
