Overall Length:

10.750 inches

Overall Height:

0.590 inches

Overall Width:

9.375 inches

End Application:

Trainer flight simulator a/f37a-t80 type designator f-5e aircraft 6930010733895; ao/ai filtered

Features Provided:

Electrostatic sensitive

Special Features:

9major components: capacitor 77; microcircuit 45; printed wiring board 1; resistor 29; mounting configuration: plug-in; all resistance in ohms all resistors +/- 5 percent 0.250w all capacitance in uf all 0.1uf capacitors 100v all 150 pf capacitors 200v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
