Overall Length:

7.000 inches

Overall Height:

5.000 inches

Overall Width:

6.000 inches

End Application:

Arts-2e, fa-9021/a acquisition processing cabinet

Special Features:

Capacitor 36, diode 6, microcircuit 11, printed wiring board 1, relay 3, resistor 26, p/o panel assembly (boc); function, circuit card assembly, baseline offset corrector; reference data, 111, ti-6190.12a, instruction book, acquisition processing cabinet (arts-iae), pg 8-19

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
