End Application:

Test set, controller/sensor

Special Features:

Major components: printed wiring board 1; terminal 24; microcircuit 1; socket 1; relay 1; resistor 3; diode 4; functional description: used in support on the f-16 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
