Overall Length:

4.250 inches

Overall Height:

0.250 inches

Overall Width:

4.000 inches

End Application:

Arts-3a, multiplexd display buffer memory (mdbm)

Special Features:

Microcircuit 19, pwb 1, resistor 11, function: circuit card assembly, mode and priority control; reference data: fig 5-5-10, px 12100-1, technical manual for arts iiiia data processing subsystem multiplexed display buffer memory (mdbm), vol 1 sec 1-5 pg 4-18

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
