End Application:
F-16 aircraft age.
Product Name:
Usage design: reference oscillator
Special Features:
Printed wiring board 1; crystal 4; transistor 20; diode 6; transformer 1; resistor 64; resistor network 1; terminal 21; capacitor 46; space
7; inductor 17
Shelf Life:
N/a
Unit Of Measure:

Yes - demil/mli

Demilitarization:

Fiig:
