End Application:

5821-01-086-6243 an/arc-186 radio set

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Control subassembly

Special Features:

Cap 16, diode 7, microcircuit 1, pwb 1, relay 2, res 8, switch 1, transformer 1, transistor 4; circuit card assembly p/n 646-3887-001 and rear chassis p/n 646-8431-002 are combined to make this component; nha control radio set c-11029

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
