**End Application:**

Aim-9

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Product Name:**

Functional description: used on test set 4044/d

**Special Features:**

Printed wiring board 1; resistor 68; microcircuit 33; semiconductor device 8; capacitor 60; transistor 1; connector 15

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
