End Application:

U/o f101-102 eng, e/i b1-b acft

Special Features:

C/o 21 pin arrangement 0.140 in. Min lg; matl qq-s-571 sn63 on module 3; functional description: used for input output signals on a.F.T.

Control located on rt lower middle side of engine; fsc application data: engine electrical system components, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
