Overall Length:

2.250 inches

Overall Height:

1.437 inches

Overall Width:

4.000 inches

Special Features:

Component quantity: printed wiring board 1, capacitor 8, diodes 2, bridge rectifier 1, integrated circuit 2, potentiometer 3, transistor 2, resistor 17, terminals 5; mounting method: three mounting spacers with holes for no. 8 selftapping screws; 120 vac 50/60 hertz; cubic measure: 0.007 cubic feet; unpackaged unit weight: 0.010 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511k0
