**Overall Length:**

2.250 inches

**Overall Height:**

1.437 inches

**Overall Width:**

4.000 inches

**Special Features:**

Component quantity: printed wiring board 1, capacitor 8, diodes 2, bridge rectifier 1, integrated circuit 2, potentiometer 3, transistor 2, resistor 17, terminals 5; mounting method: three mounting spacers with holes for no. 8 selftapping screws; 120 vac 50/60 hertz; cubic measure: 0.007 cubic feet; unpackaged unit weight: 0.010 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A511k0
